

## 略号

ABA: abscisic acid

BA: benzyladenine

bp: base pair

cDNA: complementary DNA

CTAB: cetyltrimethylammonium bromide

DNA: deoxyribonucleic acid

EDTA: ethylene diamine tetraacetic acid

FW: fresh weight

GA<sub>3</sub>: gibberellin A<sub>3</sub>

GC-MS: gas chromatograph mass spectrometry

HPLC: high performance liquid chromatography

IAA: 3-indoleacetic acid

MB: mature bud stage

MeJA: methyl jasmonate

mRNA: messenger RNA

NAA:  $\alpha$ -naphthylacetic acid

PCR: polymerase chain reaction

RNA: ribonucleic acid

RT-PCR: reverse transcription PCR

TB: tight bud stage

XTH: xyloglucan endotransglycosylase/hydrolase
